Beaches

"Sydney Scenic Private Tours offer a range of group itineraries which can be customised to create the best possible experience for each individual group. Of course we want to showcase the iconic Sydney attractions but also delve further and expose those lesser known locales."

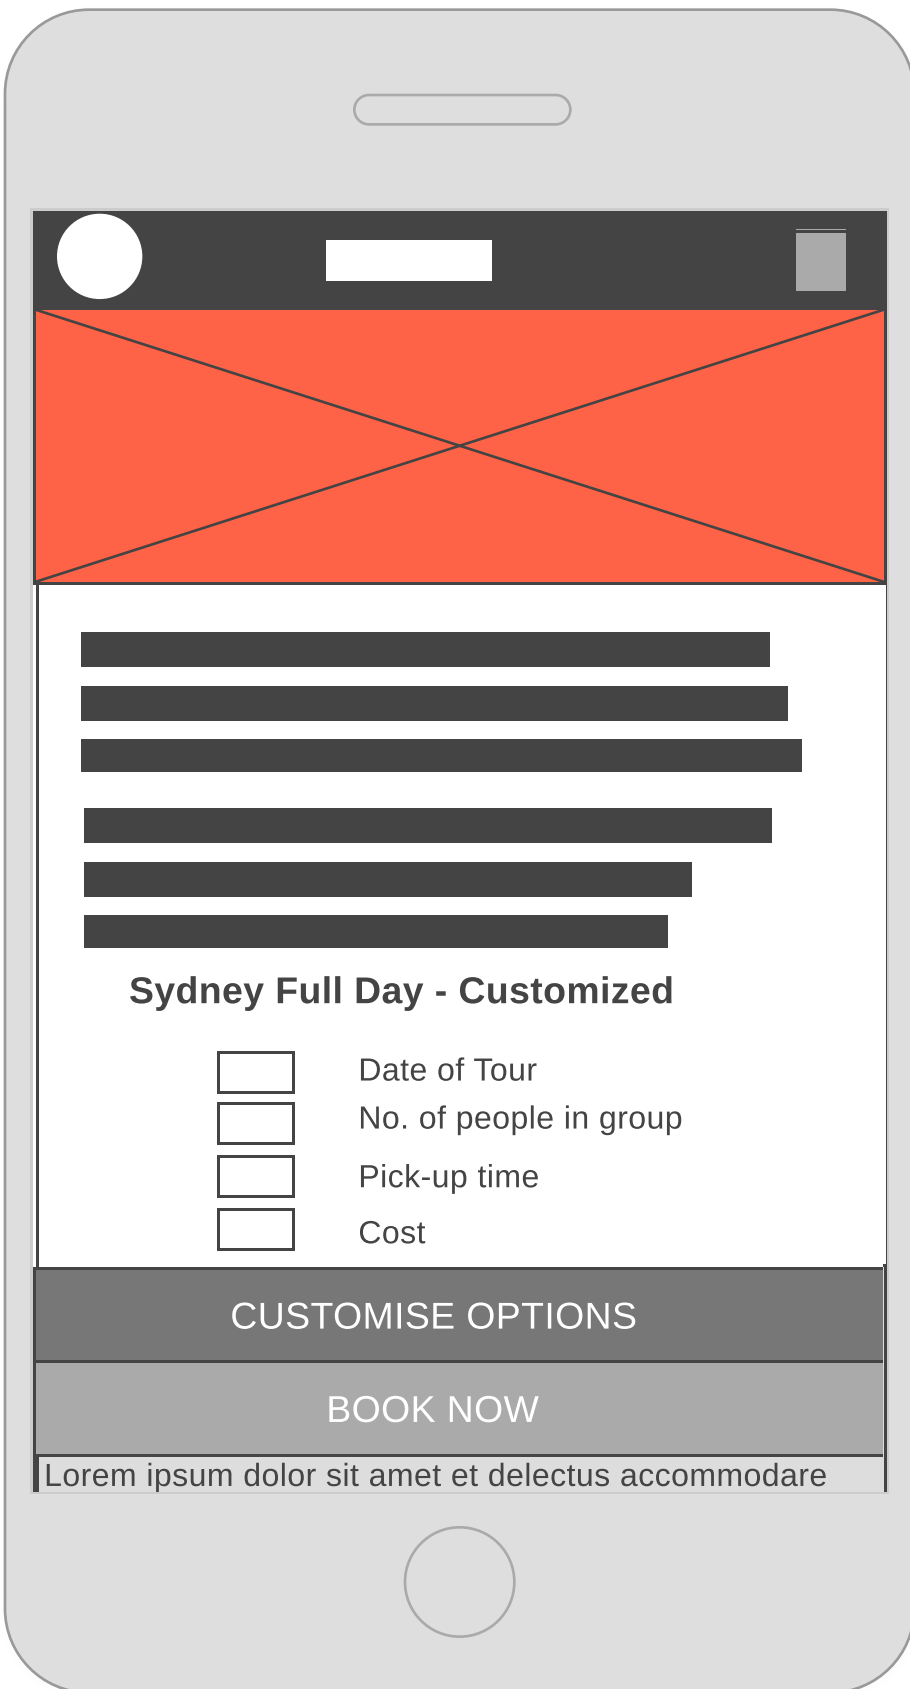

"Australia is not just about its vistas. It has a relatively short history but one full of interest. We want to share its Aboriginal heritage, early European beginnings and the multicultural nation that it is today."

"Our tours take you deep into the city centre, its incredible coastline and national parks."

"So let's get out there and experience one of the great modern cities of the world."
